

E-Scooter Safety on Campus

E-SCOOTERS ON CAMPUS

Electric scooters are a popular way to get around campus. Let's all do our part to keep UCLA safe.

20,000+
EVERY YEAR

Over 20,000 people are injured riding electric scooters.

1,500+
HOSPITALIZED

1,500 people are hospitalized with serious injuries (fractures, traumatic brain injuries).

HIGHER RISK FOR YOUNG RIDERS

60%+ ARE 25 YEARS OLD OR YOUNGER

Over 60% of those injured are 25 years old or younger.

Safety is no joke.

Ride responsibly and look out for each other.

KNOW THE RULES. FOLLOW THE RULES.

- 1** All mobility devices must be walked on campus.
- 2** Tandem riding on scooters is not allowed.
- 3** You can be issued a traffic citation for violating these regulations and many others – educate yourself!

(California Vehicle Code Section 21235 – leginfo.legislature.ca.gov)

WEAR A HELMET. STAY ALERT. RESPECT OTHERS.

Together, we can keep our campus safe.
